

**Environmental Assessment (EA) of the Proposed Quarry Landfill Expansion,  
Stelco Lake Erie Works, Nanticoke  
Environmental Assessment Consultation Event #2 Feedback Form**

Thank you for taking the time to provide us with your comments. We welcome you to complete this form after reading the material for Consultation Event #2.

If you would like to be added to our project mailing list, please include the appropriate contact information below.

**YES, BY MAIL**     **YES, BY EMAIL**     **NO**

NAME:

PHONE NUMBER:	
ADDRESS:	

1. The purpose of this Project is to provide an environmentally safe and cost-effective long-term plan for the management of non-hazardous secondary steelmaking materials from Stelco that cannot be otherwise recycled or reused. Do you have any comments regarding the purpose of this Project?

2. Two 'Alternative Methods' to address Stelco's waste management requirements were presented and included: lateral landfill expansion to the south and east, and lateral landfill expansion to the east only. Do you have comments specific to the potential alternatives? Do you have suggestions for additional alternatives that were not listed in our materials?

3. The following table lists proposed natural, social, economic / financial and technical components of the environment being considered to assess and compare the 'Alternative Methods' for non-hazardous waste management.

Please tell us how these rank in importance to you. Are there any environmental components you wish us to consider in addition to what is included in the table below?

--

Components to Assess and Compare 'Alternative Methods':

Environmental Component	Sub-Component	Importance		
		Very Important	Important	Less Important
Atmosphere	Air Quality/Greenhouse Gas			
	Noise			
Geology and Hydrogeology	Groundwater Quality			
Surface Water	Surface Water Quantity			
	Surface Water Quality			
Biology	Terrestrial Ecosystems			
	Aquatic Ecosystems			
Agriculture	Agriculture			
Land Use	Current and Future Planned Land Use			
Cultural Heritage Resources	Archaeological Resources			
	Cultural Heritage Landscapes			
	Built Heritage Resources			
Socio-economic	Local Economy			
	Residents and Community			
	Visual			
Design and Operations	Engineered Containment			
	Financial			

4. Potential study areas for the existing conditions assessment and impact assessment of the Environment Assessment were presented. Do these study areas adequately address potential areas of impact from the proposed landfill expansion? Do you have suggested updates to the proposed study areas?

5. Were you able to get the information you were looking for at Consultation Event #2? If not, please explain what additional information you were seeking. Do you agree with the future planned consultation events (slide 19 of the Consultation Event #2)?

6. Please provide any additional general comments you may have regarding the proposed Project, the Environmental Assessment or any of the material provided.

Under the *Freedom of Information and Protection of Privacy Act* and the *Environmental Assessment Act*, unless otherwise stated in the submission, any personal information such as name, address, telephone number and property location included in a submission will become part of the public record files for this matter and will be released, if requested, to any person unless you request that your personal information remain confidential. For more information, please contact the Ministry of the Environment, Conservation and Parks Freedom of Information and Privacy Coordinator at 416-314-4075.

You can provide your comments on the Environmental Assessment Consultation Event #2 or any questions you may have about this project by email or mail to:
